

Rolling Redemption

Driving America's Comeback

More Freight • More Jobs • More Redemption • More America

The Moment: With tariffs bringing manufacturing back to the USA, freight demand is set to surge. Every new factory, every new product line, needs trucks to move it. America wins when America builds—and when America hauls.

The Problem: Too many good Americans are written off after mistakes, leaving wasted talent, broken families, and taxpayer costs.

The Solution: Rolling Redemption—America's first large-scale *Second Chance Fleet*. We put trained drivers behind the wheel, reduce taxpayer burden, and rebuild families while keeping freight moving.

The Results: Safer communities. Stronger families. Lower costs. More jobs. More freight moved by Americans for Americans.

The American Dream: Work hard. Earn honest money. Have something to show for it. Enjoy freedom with family. That's Rolling Redemption.

STRONG ON FAMILIES • STRONG ON FREEDOM • STRONG ON
AMERICA
